

ImageStream Advanced Training & Certification

Denver, CO.
October 6 - 10, 2008
Early Bird special - \$999
(\$1,199 after Sept. 14th, 2008)

5-Day ICNA Certification Training and Exam

The ImageStream Certified Network Administrator (ICNA) certification is designed for network administrators with an advanced understanding of TCP/IP and significant experience with ImageStream routers, ImageStream Linux™ and ImageStream's Inetics™ technology platform. The ICNA certification course is a five-day seminar that introduces candidates to the full range of ImageStream products and interfaces, and includes basic network design, OSPF, BGP, MPLS/VPLS, ATM, PPPoE and L2TP with emphasis on DSL aggregation, PowerCode setup, CALEA/lawful intercept and exam review, and final exam.

Course Objectives

- Basic network design
- OSPF design & config
- BGP design & config
- MPLS/VPLS design & config
- ATM, PPPoE & L2TP for DSL & wireless
- PowerCode setup
- CALEA/lawful intercept & exam review plus exam
